

CLASS 11: L2 BIOLOGY CLASS

RELIEF.

Get a Cell Biology Packet from the teacher. It will contain a number of items that may help you understand the structure and Function of a particular plant cell – Elodea. This may or may not be one of the drawings you will do for your assessment.

- Look carefully at all the images in the packet to give you a better idea of cell shape, organelles within the cell, position of the organelles and relative sizes of the different parts of the elodea cell.
- Look very closely at how cells are packed, with special attention to the junctions. Can you draw them. Some examples are very clear.
- Try drawing a group of cells again. Hand it in with your packet. You will mark it yourself against an exemplar during our next class.
- Read and complete the worksheet on Structures only found in Plants
- Read and complete Cell Organelles worksheet
- Colour in the Plant cell.

DON'T WORRY – YOU PROBABLY WON'T GET THROUGH ALL THIS

JUST ENJOY ☺

HAVE A GREAT DAY – MAXINE

PLANT CELL WALL JUNCTIONS
